NEW BUILDING CODE APPROVED

Council to Act on Ordinance Monday—Jitney Bus Bill Also Gets O. K.

After two years, South Bend's new building code has the approval of the committee of the whole of the city council and will be presented for action at the regular meeting of the council next Monday night. Final consideration of certain passages in question and the reading of three remaining sections was gone through with at a long and busy session Tuesday evening.

The much talked of and often acted upon Jitney bus ordinance again made its appearance before the committee, and went back to the council's regular meeting with a favorable report. The forestry ordinance was brought up, with Richard Elbel of the park board present to urge its submission as soon as possible. The council, however, decided to go to Fort Wayne Saturday for week-end visit in its parks and to study the Fort Wayne plan which is proposed for South Bend. Mayor Keller and Atty. Seebirt plan accompanying the body.

Give Sign of Relief.
Composed of 50 sections, one of them 50 pages in length, the final reference to the clauses of the building code was followed by a sigh of relief from the six councilmen present at the session. Mayor Keller and Atty. Seebirt sat through the meeting, and at the close Mr. Keller offered several suggestions regarding the depth of foundations for small dwellings.

Councilman Hagerty broke the smoothness of action surrounding submission of the ordinance when he suggested it be held over for a few months so people interested, especially builders and workers, could peruse its length for points of interest to them. The body, however, acted in favor of the ordinance on the grounds that most of those interested in the document had been interviewed during its compilation, while ample opportunity for further following of its precepts had been given in the hearings of the past several months.

Extend Roof Fireproof Zone.
In the section relating to zoofs, a phrase was inserted, making fireproof construction in and within 400 feet of the fire limits the rule. This regulation was also made in the clause relating to repair who na roof was more than 50 per cent damaged.

A clause relating to the building of chimneys and calling for ground construction rather than the usual bracket used in small cottages was reconsidered, but no action taken upon suggestion of Architect Conrad, instrumental in framing the document. He pointed out that present day construction called for foundation chimneys from the ground up. The fire department had requested preference for this construction over the bracket plan.

Atty. Seebirt urged dispatch in acting upon the building code so it could be placed in the hands of the printer, who asks until the middle of February to complete his work. Councilman Hagerty voiced the only opposition upon a yea and nay vote to favorably reporting the code to Monday night's meeting.

As to the electrical specifications, no clause was incorporated, the committee awaiting the national code, which has been in use over the country and which contractors have lived up to here. A separate ordinance will be drafted for this feature as soon as a report is received from the east, where the national code is being revised.

It was pointed out in face of oppo-

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

Everyone Should Drink Hot Water With Phosphate in it, Before Breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver.

If you catch cold easily, it's your liver.

If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver.

Salow skin, muddy complexion, watery eyes all denote liver uncleanness.

Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the jammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink, each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleanses, stimulates and freshens the liver, keeping you feeling fit day in and day out.—Advt.

sition and question on several clauses of the code, that amendments could be made at any time.

Report Trouble on Bus Bill.

Thrown back on the committee of the whole when an opportunity was offered a few weeks ago through a desire to change the date of its going into effect, the jitney bus ordinance, drafted to cover all manner of motor vehicles subject to hire, received much comment at the opening of the session, but finally was reported favorably for Monday's meeting, with slight opposition in a dual nay vote.

Councilman Hagerty was foremost again in bucking certain provisions and lack of provisions regarding this ordinance. He wanted a lower license fee—placed at \$20—and a provision for indemnity insurance or a bond, which the men could easily pay for with a deduction of the city tax. A stipulation regarding routes was also brought by him. The court house square was suggested as a radiating point.

Would Stop Complaints.

This, he said, would relieve several who had recently complained of the machines parking in front of their places of business. The American Trust Co., First National bank and the Oliver hotel were mentioned as against the parking of machines before their doors, stating the practice interfered with their customers' driving up to the curb.

That the city had no right to legislate in this matter, in that freedom of the streets was provided by state law for automobiles and other vehicles was the opinion of Atty. Seebirt. Chicago was quoted by Hagerty in his plea for the radiating point. Routes and scheduled trips, through all hours of the day and not rush hours only was also urged.

COMMITTEES ARE NAMED

Executive Body of Franklin Social Civic Club Meets.

The executive committee of the Franklin Social Civic club held a meeting Tuesday evening at the home of the president, Glen Granger, 611 Clinton st. During the business meeting the following committees were appointed: Program committee, Mrs. Mildred Parker, chairman, Miss Helen Burke, Miss Henrietta Konzen, Miss Anne DuShane, and Mrs. Andrew Hildebrand; promotion committee, Mrs. C. W. Slick, chairman, Miss Edith Brown, Mrs. Lena Smith, Mrs. John Wolf, Mrs. Walter Roberts, Mrs. Elme Doddridge and George Davis; important committee, Irving Plucker, chairman, Arthur Miller, L. D. White, C. A. Byer, Mrs. H. L. Longbrake, and Mrs. Grace Mitchell. Mr. Byer and Mr. Davis and Mrs. C. W. Stover were chosen for a committee to appoint a committee of boys for a boys' club. After the business session a social hour followed when Mrs. Granger served refreshments. The next regular meeting of the club will be Tuesday evening at 7:45 o'clock at the school building.

Y. W. C. A. WILL ENTERTAIN

New Members Are to be Guests of Honor Thursday Night.

Invitations have been issued for an entertainment of all members of the Y. W. C. A. Thursday evening at 7:45 o'clock. An illustrated lecture will be given by Rev. C. A. Decker on "The Great Southwest," followed by a candle lighting service for the reception of the new members of the association who have been received during the last three months. All those invited are asked to bring a small candle.

The joint party of the Y. M. C. A. and the Y. W. C. A. which has been previously announced for this date has been postponed until further notice, and the regular monthly work which meets on this date will be held on Friday evening instead.

CHURCH TO SHOW MOVIES

St. Paul's M. E. Installs Machine for Sunday.

St. Paul's Methodist church is installing a moving picture and stereoscopic machine this week and pictures will be shown for the purpose of moral and religious education at the church Sunday evenings.

This action is being taken since the resolution passed at the recent session of the New York Methodist conference in which it endorsed the use of moving pictures in the churches. The machine will be used from time to time on week nights to present films of an educational character and on Sunday evenings to present Bible scenes and stories.

GARRISON MEETS

Indoor Baseball and Bowling Teams Are Organized.

Pointsett garrison No. 93, Army and Navy union, held its regular muster Tuesday evening. Besides the routine business indoor ball and bowling teams were organized and put into training to meet other teams of the same class. On Tuesday evening, Nov. 23, the "off" night, the garrison will hold a smoker at the Magyar hall, S. Chapin st., to which all comrades of the union are invited. "Dutch" lunch will be served by Comrade Joe Howard. Proceedings will be after traditions of the service without fixed program.

300 ATTEND MEETING OF KALEY CIVIC CLUB

About 300 residents of the Kaley school district attended the meeting of the Kaley Civic club held Tuesday night at the school. Shepherd Leffler of the high school faculty gave the third of his series of addresses on civil government, speaking on the subject "The City Council and the City Court."

Miss Fern Parker led the community singing, and the Lutheran Zion church choir rendered two selections. In the absence of Ernest Heinbeiman, Peter Switalski presided.

The Kaley Women's Athletic club will hold a meeting at the school tonight. Thursday night officers will be elected at the meeting of the Men's Athletic club.

Come to the Penny Supper at the First Frethren church Thursday evening, Nov. 18.

SKATING WILL BE MAIN ATTRACTION

City's Playgrounds Will be Kept Open This Winter. Plan Contests.

Most of the city's playgrounds will be open this winter and extensive preparations are being made to furnish plenty of entertainment at these places. According to the playground authorities, the play fields can be used with greater success during the regular summer months and during that part of the year when there is snow on the ground.

Skating will be the main attraction at all of the playgrounds, but besides this sport sliding places will be fixed up for the smaller children. At least six of the municipal recreation parks will be open this winter for men, women and children.

Oliver playground probably will be the most popular, for it is there that all of the big events of the winter will be held. This field is the largest of any of the playgrounds and it is planned to have a skating rink that will take up about two acres. The field covers four acres and at least one-half of it will be used for skating this winter.

Will Hold Contests.

Competition in skating will be put on there probably every week. Every skater in the city will be allowed to take part in the contests. There will be long and short distance skating, obstacle races, fancy and feature skating.

Besides this competition there will be inter-playground contests. Skaters who get their practice on the various playgrounds will meet each other in races, hockey and "shinney." The latter game probably will be the most popular with the smaller boys, for any kind of a club, an old tin can and a pair of skates are all of the things that are required for this sport.

Sample, Kaley, Muesel, Laurel and River Park playgrounds will have rinks and Coquillard will be added to the list. These places are far enough apart to allow teams from all parts of the city to be organized to compete against each other.

Pied houses will be built at all of these places and stoves will be installed to keep the skaters warm. It is probable that an expert skater will be secured to teach the art at some of the playgrounds.

TEN ARE MADE U. S. CITIZENS

All Kinds of Queer Answers Heard to Questions Pertaining to Government.

Were a stranger to have walked into the circuit court Tuesday afternoon he might have learned that Columbus was governor of Indiana, that Mayor Keller made all the laws for the whole country, that he was either in Elkhart or Laporte counties, and that Theodore Roosevelt was now president of the United States.

Were he to have remained longer he would have learned that it was naturalization day and that some of the applicants were slightly confused on their knowledge of governmental matters when examined by Federal Examiner C. R. Thompson.

Of the 17 applications only 10 were admitted into full citizenship. They received the oath of allegiance. The cases of four applicants were continued.

Following is the list of those who were granted full rights as an American citizen:

Barney Mooran, Victor De Maerteler, Richard Juss Heuser, Steve Guzicka, Israel Isser Gilbert, Louis Cohen, George Krakosky, Joseph Sherman, Joseph Vogl, Steve Kovacs.

WOMAN EVANGELIST SPEAKS.

Rev. Mrs. Emma Martindale preached the first of a series of sermons last night at the E. LaSalle rescue mission using as her subject, "Sin and Its Remedy." Rev. Mrs. Martindale is considered one of the best rescue mission evangelists.

CHIMNEY FIRE.

Hose company No. 10 was called to the residence of August Hoagland, captain of the hose company, at 2:30 o'clock Tuesday afternoon, by a small chimney fire, which did no damage to the building. Capt. Hoagland lives at 1817 S. Michigan st.

FAMOUS TEACHER DIES.

DRESDEN, Germany, Nov. 17.—Famous teacher of the piano, Theodor Leschetitzky, died here today. He was 85 years old. He was the principal master of Paderewski.

RESPONSIVENESS

Is born of confidence. No where is this demonstrated as forcibly as in advertising. Every merchant who lives up to the spirit as well as the letter of his advertising, provided he has bought, priced, and offered wisely, goods that are seasonable, is powerless to prevent the public from patronizing his store.

Lay your cards face up on the table. Say to the public, "Here I am, and here's what I have to offer you."

Mr. and Mrs. William Qualls have returned to Lagrange after a visit with River Park and South Bend relatives.

J. Vandenburg of N. Sixth st., who has been ill the past two weeks is slightly improved.

MAYOR MITCHELL BETTER

Temperature and Pulse Are Approaching Normal.

NEW YORK, Nov. 17.—Further improvement was shown today by Mayor John Purroy Mitchell, who was operated on for appendicitis at the Roosevelt hospital Monday night.

A bulletin issued by Dr. Charles H. Peck and Dr. Woodruff L. Post at 8:45 o'clock shows that Mr. Mitchell's temperature and pulse are approaching normal.

The context of the bulletin follows: "The mayor continues to improve. He spent a comfortable night, sleeping quietly the greater part of the time. His general condition is excellent. Temperature, 98; pulse, 99; respiration, 22."

AUTO BANDIT IS SHOT

Dies of Wound Received During Revolver Duel With Police.

CHICAGO, Nov. 17.—Two policemen fought a revolver battle with two young men who had just abandoned a stolen automobile early today. Many shot were exchanged. The youths escaped.

Four hours later George Qubes, 17 years old, was found dying from two bullet wounds. He was partly hidden beneath a sidewalk near the scene of the battle. He was conscious when he was removed to the Bridwell hospital, but died soon after. Detectives were assigned the task of finding Qubes' companions of last night.

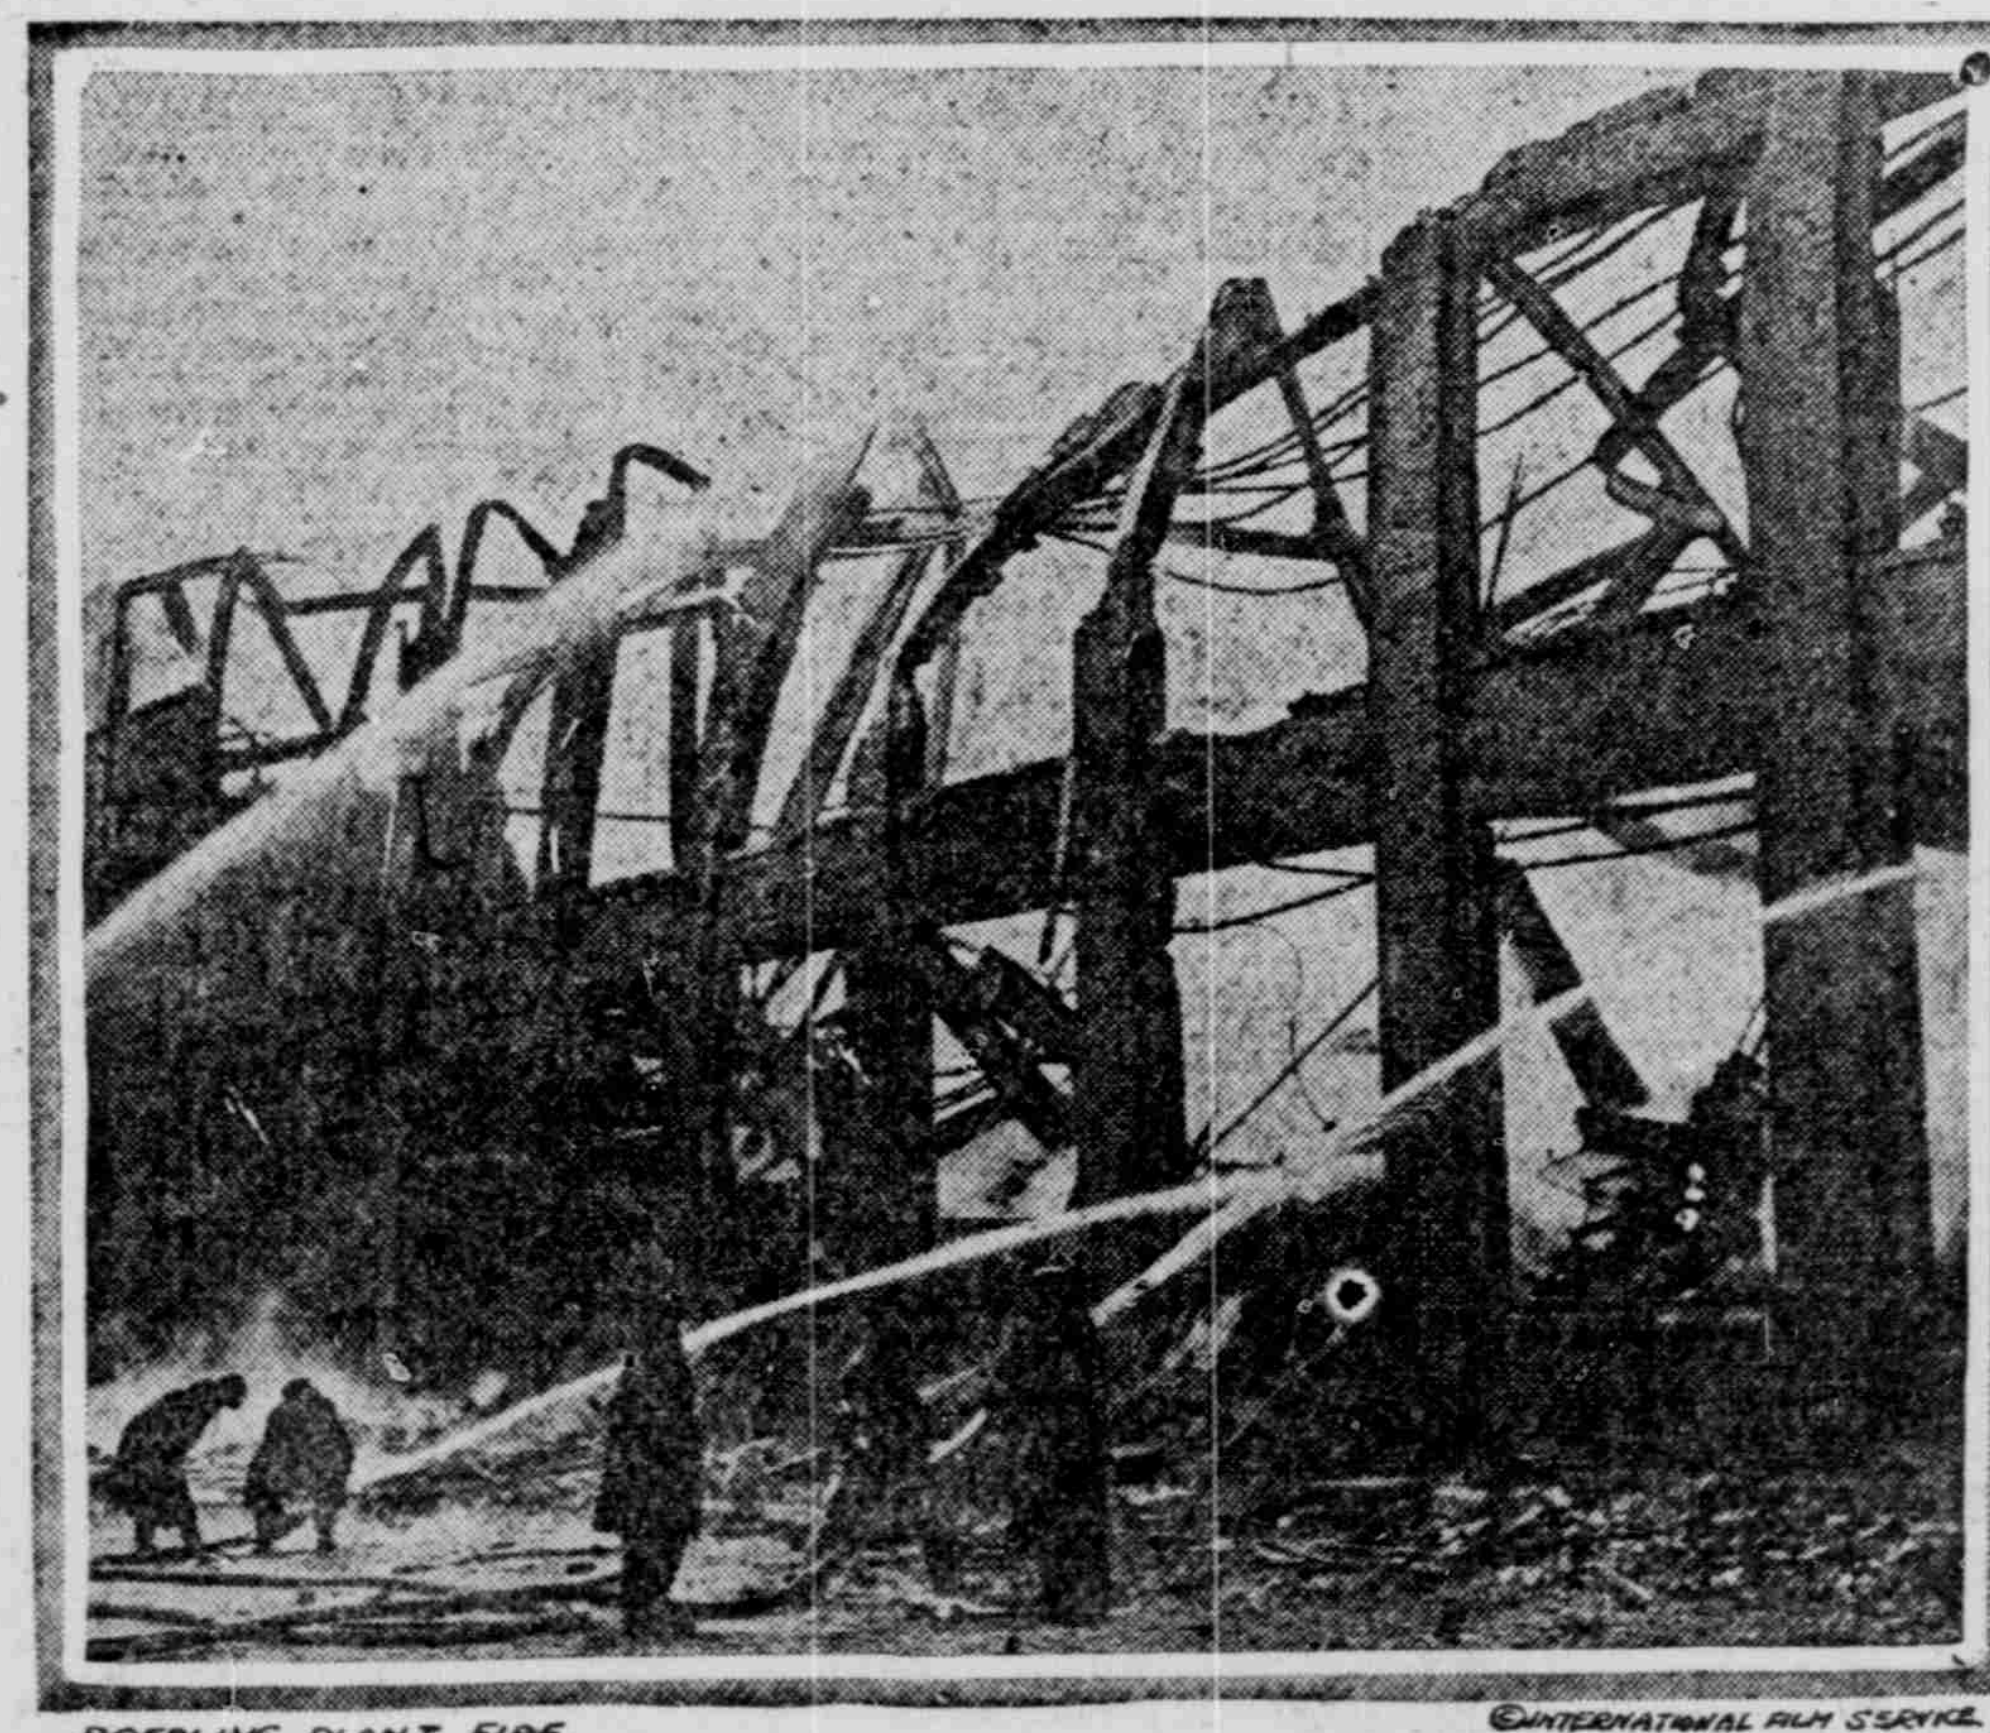

Combing Won't Rid Hair of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to loosen hair scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.—Advt.

ROEBLING PLANT FIRE.

INTERNATIONAL RAIL SERVICE.

The fire in the immense plant of the John A. Roebling's Sons Co., which is filling war orders for the allies, threatened all of Trenton, N. J., where the plant is located and was the third fire in American munitions

plants within 24 hours. The Eddy stone plant of the Baldwin Locomotive works and the machine shop of the Bethlehem Steel Co. at South Bethlehem, Pa., were also victims of fire. The Blackthorn plant of the Roebling works, a few blocks from the

plant just burned, was also the scene of a fire on Jan. 18, last. At that time it was believed the fire was of incendiary origin and the latest fire has strengthened belief that anti-aliens fanatics have been setting the fires. The loss is estimated at more than a million dollars.
